

# Mounting / Installing ISO Files Using Virtual CloneDrive

---

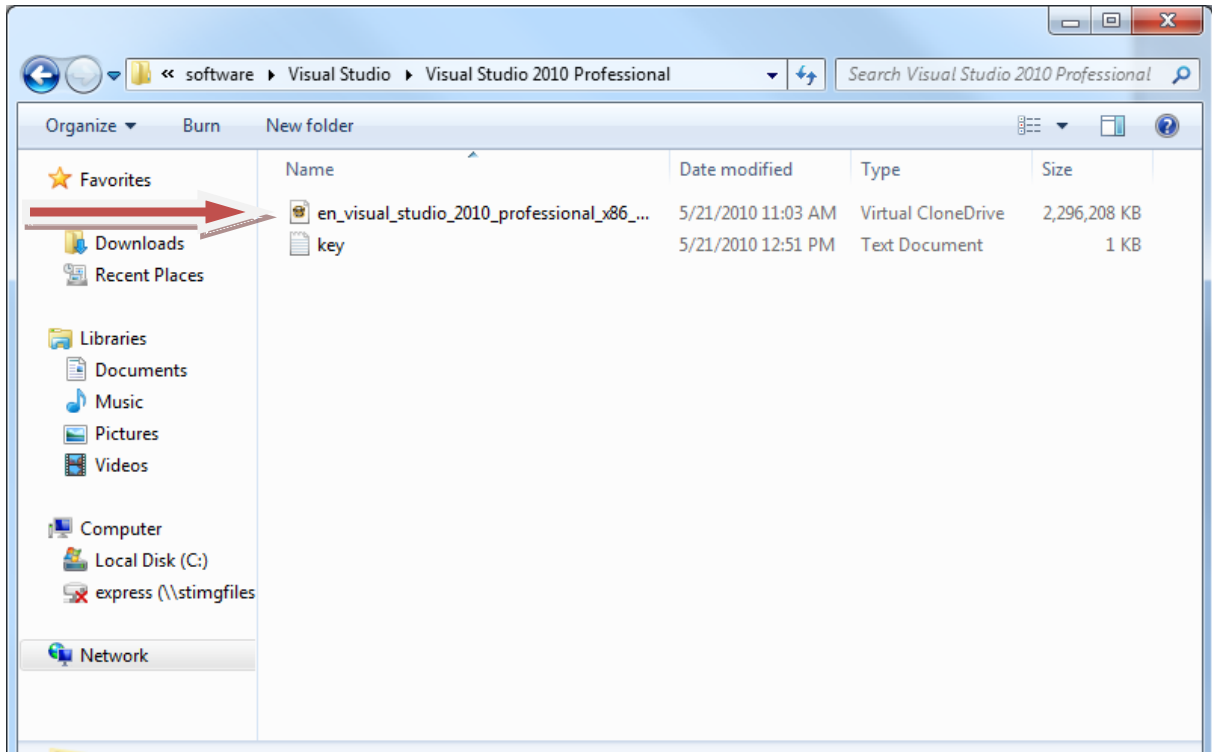

## Step 1: Getting Virtual Clone Drive

- Visit <http://www.slysoft.com/en/virtual-clonedrive.html> and download the free Virtual Clone Drive software.
- Install VCD software by clicking the downloaded item from the website.

## Step 2: Mounting an ISO

- Find the ISO you wish to install and right click on it.
- Select “Open With” ->“Mount Files with Virtual CloneDrive”

## Step 3: Install Your Software.

- Click the “Run” Option and begin installing your software.
